FIRE DEPARTMENT

1010 Eighteenth Avenue
Newark, New Jersey 07106
201/733-7424

Stanley J. Kossup
Director/Fire Chief

March 15, 1995

The Honorable Sharpe James
Mayor, City of Newark
City Hall - Room 200
920 Broad Street
Newark, New-Jersey 07102

Dear Mayor James:

As Director/Fire Chief of the Newark Fire Department, I am pleased and proud to submit, for your attention and approval, the Newark Fire Department's Annual Report outlining activities for the year 1994.

We, in the Fire Department, again affirm that the primary goal of the Fire Department has always been and will continue to be the prevention of fire, and when a fire occurs, to quickly control it, keeping the loss of life and property to a minimum. We remain committed to provide protection for the Citizens of the City of Newark.

Unfortunately, there were eight (8) lives lost due to fires during 1994. Only a "zero" figure will be acceptable to the Fire Department, be assured that The Fire Department will utilize all of its resources to achieve that goal.

This Department will continue to increase its efforts in all areas of Fire Prevention and Code Enforcement, as well as, Firefighting. In 1995, special attention will be paid to In-service building, inspections by Firefighting companies; as well as fire safety education programs presented in schools, to civic organizations and business groups by our Community Relations Division. Efforts in these areas have contributed to reducing the number, and severity of fire incidents and major fires.

March 15, 1995

The Honorable Sharpe James
Mayor, City of Newark

Fire Department - Annual Report 1994

All Members of the Fire Department, both uniformed and civilian, wish to express their sincere gratitude and thanks to you ; the Business Administrator, the Members of your Staffs, to all Department Directors, and Members of the Municipal Council, for their fine and wholehearted cooperation and assistance, which was rendered whenever needed or requested.

Respectfully,

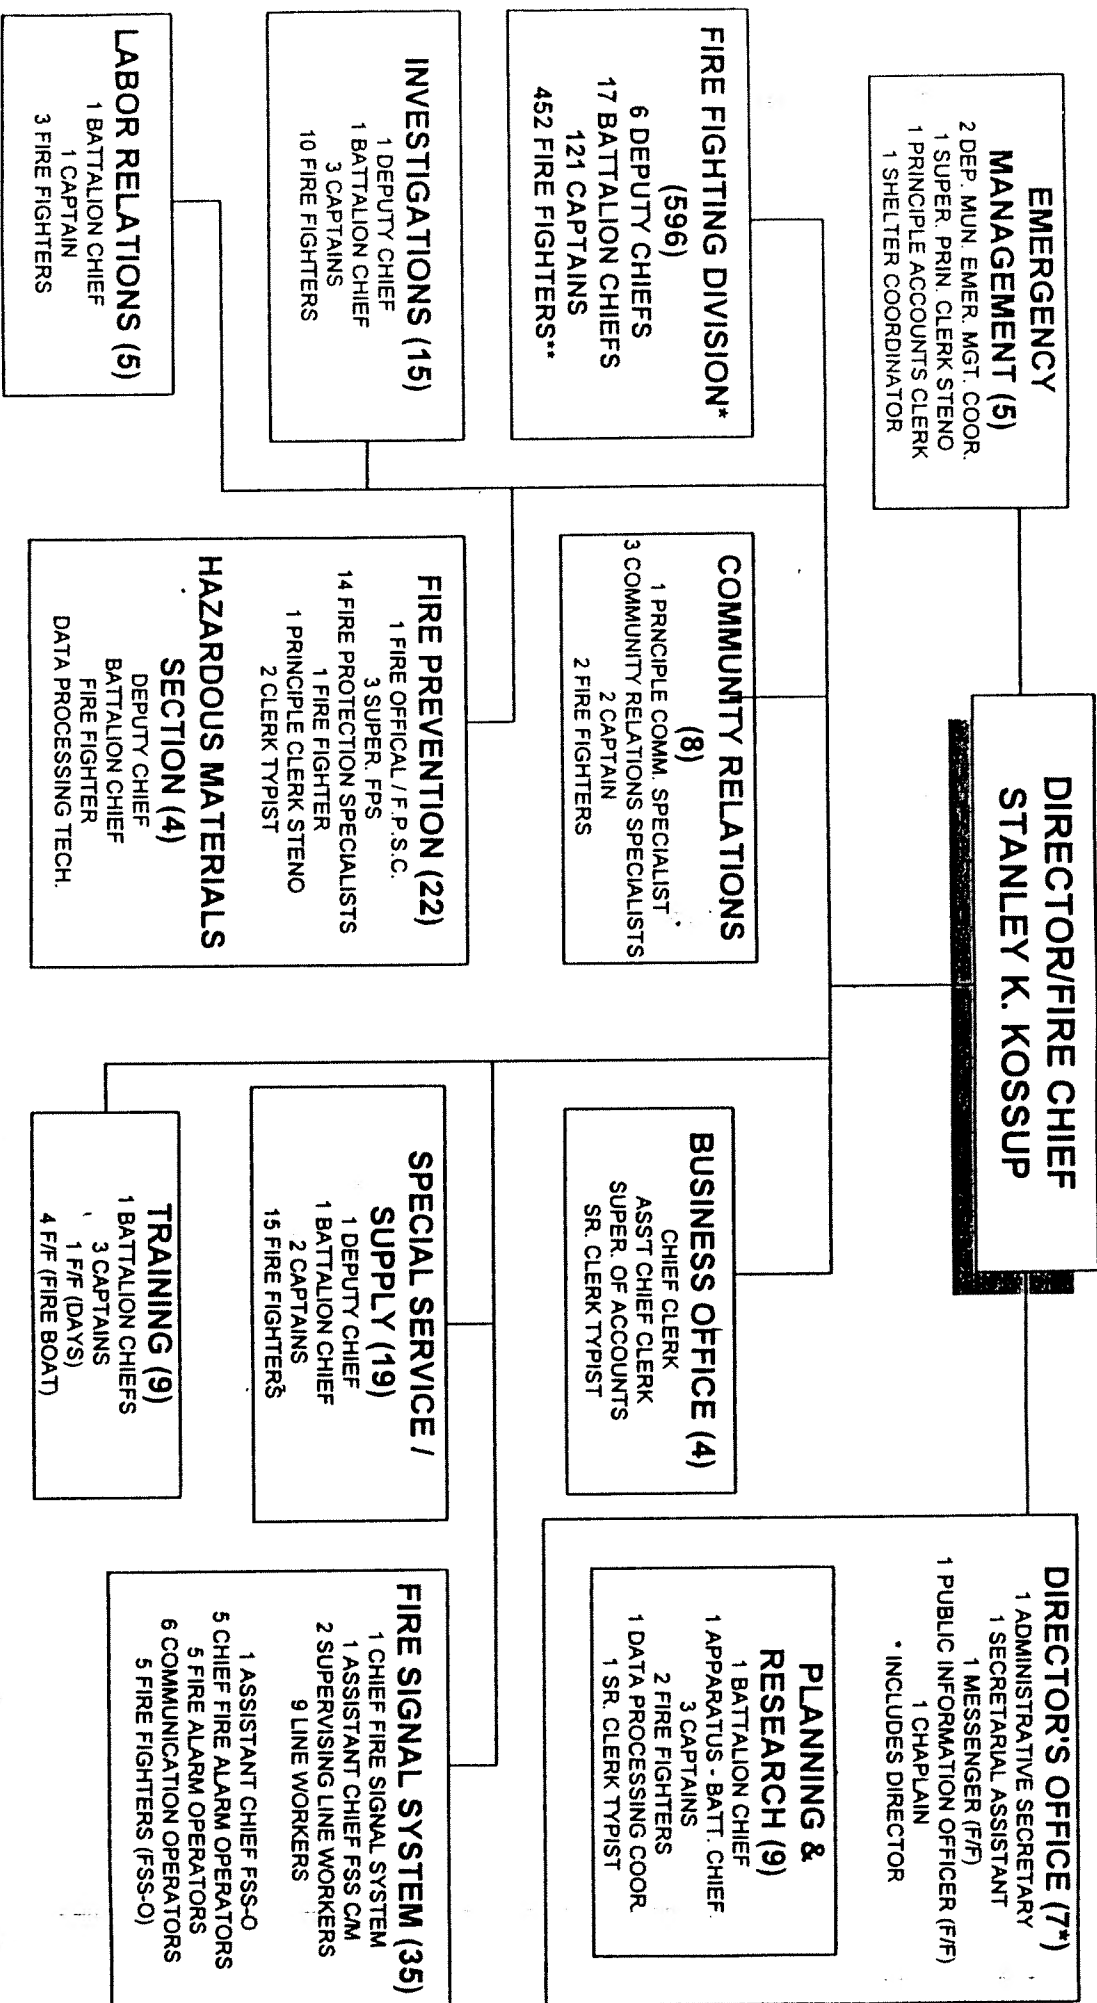

A handwritten signature in cursive script, appearing to read "Stanley J. Kossup".

Stanley J. Kossup
Director/Fire Chief

DIVISION OF FIRE PREVENTION AND LIFE SAFETY
ANNUAL REPORT
1994
Submitted By
Anthony F. Peters Jr. , Acting Fire Official

OVERVIEW

The City is continuing to improve in many areas. During 1994 there were many new housing units completed in the City. The demolition of several of the Columbus Homes buildings has paved the way for more moderate and low income housing. The completion of the demolishtion project is scheduled for early 1995. The construction of the Performing Arts Center is moving along well. The Archdioese of Newark is also constructing a new center and revitilizing a structure in the downtown area.

FIRE CODE

The Uniform Fire Code remained unchanged in 1994. The State of New Jersey has put the Local Enforcing Agencies on notice that there may be a major change in the Code in 1995. Any extensive changes in the Code will require the members of the Division to update their training to enable them to enforce the code properly.

If there are no major revisions to the code our personnel will still be required to update their knowledge and certifications. Toward this end our members have collectively attended over thirty update seminars during the year.

PUBLIC EDUCATION

One of the greatest challenges placed before the Division is to educate our young people in the ways to keep them and their families safe from the effects of fire.

One of the major problems the Division and the Newark Board of Education is facing is the growing number of false alarms in our schools. This year's report will show a total of 1038 false fire alarms in the schools. These alarms are dangerous. Not only for the students who must evacuate the schools, they are dangerous to the firefighters who must respond.

The Division has worked this year an is continuing to work with other City agencies and private businesses in fire safety education. In conjunction with these agencies and businesses the

Division has helped develop evacuation plans, train employees and monitor evacuation drills.

VACANT BUILDINGS

During 1994 the Division, as all City agencies, were involved in a massive citywide inspection. The Division's part of the inspection concentrated on vacant buildings. The vacant structures were prioritized as they inspected in an attempt to insure the structures in the poorest condition are dealt with first.

SMOKE DETECTORS

"Get Out and Stay Out" was the theme for 1993's Fire Prevention Program. This slogan along with others such as "Smoke Detectors Save Lives", "Don't Stay Home Without One", "Test Your Detector", "Its Sound Advice", were used to remind the public of the significance of having an operating smoke detector in our home.

Though there were some fire casualties in the year 1993, our persistent enforcement of the smoke detector laws and ordinance has caused a overwhelming decrease of the fire casualties in the City of Newark.

The value of smoke detectors can not be underestimated. In 1993 as in previous years there were no fire deaths in dwellings properly equipped with operating smoke detectors.

CONSTRUCTION PLAN REVIEW

The review of plans for construction and alterations is ongoing. In 1994 complex projects such as the Performing Arts Center highlighted the efforts. As more and more construction occurs in the City, the work load increases for the members charged with review of plans for alterations and new construction. Not only are they do they perform plan review but also onsite inspections of the completed projects.

FIRE STATISTICS/RECORDS

The Fire Records section of the Division of Fire Prevention and Life Safety has finally received several computers. These units are connected to Fire Headquarter's Local Area Computer Network. Unfortunately this "LAN" is not yet "online" and the computers must be used as "stand alones" until the network is up and running.

With the computers the Division received we were able to set up several files to enable us to track violations, penalties and court cases. Along with these inspections records, the Division will also be able to better track fire incident reports and creat meaningful fire statistics.

PERMITS & CERTIFICATES

The Division of Fire Prevention & Life Safety issues many types of permits and certificates. These permits and certificates are broken down into several categories which are described below.

Combustible permits are issued for drug and chemical establishments, storage of ordinary combustibles, parking stations, mobile cooking units, carnivals, junkyards, just to name a few.

Life Hazard Certificates are issued after successful inspections to those occupancies which are deemed "life hazards" under the Uniform Fire Safety Code of the State of New Jersey. The State currently lists about 2650 "life hazards". These occupancies include taverns, restaurants, dance halls and clubs.

A Certificate of Fire Code Status is issued when any building, except a one or two family dwelling, is sold or transferred.

A Certificate of Smoke Detector Compliance is issued for every one or two family dwelling which is sold or transferred.

Division of Investigation

* * * ANNUAL REPORT 1994 * * *
Submitted by
Deputy Chief James V. Raymond

The following is a report of the activities of the Division of Investigation's Arson Squad and the Office of Hazardous Materials for the year 1994.

The complete records of all investigations and inspections conducted by the Arson Squad, and the Office of Hazardous Materials, including photographs, evidence, statements, violations ect., are on file in the Offices of the Arson Squad, located at Fire Headquarters, 1010 18th Ave. and the Office of Hazardous Materials, 188 Mulberry Street. All information will be made available to interested parties when needed for disposition, Grand Jury Presentation, Criminal Prosecution, Civil Suit or for any purpose demanded by law.

Records of juvenile apprehensions, adult arrest, together with court dispositions of these arrest, are on file in the Arson Squad Office, and will be made available to the proper authorities upon request.

Records for facilities that registered for a permit under the Hazardous Materials Regulations of the City of Newark are on file with the Office of Hazardous Material. Information contained in these files are strictly confidential and is not for publication.

The Arson Squad has maintained a daily association with other bureaus of municipal government, such as the Newark Police Department's, Youth Aid Bureau, Homicide Squad, Major Crimes Division, and the Patrol Division., Board of Education, Fire Prevention Bureau and the Life Safety Division, Engineering Department, as well as the Department of Health and Welfare

We have also recently become a contributor, as well as a participating member of the newly formed Juvenile Firesetters Intervention Program, of Essex County. This program deals specifically with children who have shown a fascination with fire.

Throughout the past year, we have continued our liaison with the Federal Bureau of Investigation, The Federal Bureau of Alcohol, Tobacco, and Firearms, New Jersey Division of Criminal Justice, New Jersey State police, New Jersey Division of Motor Vehicles, New Jersey Division of Family Services, New Jersey Insurance Fraud Commission, Essex County Prosecutor's Office. Essex County Sheriffs Department, Bomb and Canine units. All of these agencies have given us important assistance in many of our investigations and we express our gratitude for this help.

Members of the Arson Squad assist the Division of Criminal Justice with their in-service training programs established under N.J.S.A. 40A:14-7.1 and also continue to cooperate with the Essex County Prosecutor's Office, (Arson Task Force and Environmental Task Force), with investigations throughout Essex County. Detectives Irizarry and Rodriguez of this command have assisted other departments and the Prosecutor's Office by acting as interpreters for Spanish speaking victims and witnesses.

The Division of Investigation has under taken a new realm of investigations, in that we are now investigating in the area of illegal dumping of both Hazardous and Solid Waste. The Hazardous Materials Unit and support staff are also directly under the control and authority of this office.

Members of the Division of Investigation conduct and assist in the training of newly appointed Fire fighters as well as those Fire fighters that have been on the job for a period of time. The Arson Squad also assist in the training of other arson units through the use of films from our library and knowledge obtained through numerous investigations. We also conduct background investigations on all prospective candidates for the Newark Fire Department. This unit is often called on to provide security for various buildings and to assist the Director and Deputy Chiefs Coordinator in all departmental trials. We also provide valuable assistance to the Law Department in researching files for litigation purposes.

MEMBERS OF THE ARSON SQUAD TOOK PART IN THE FOLLOWING SCHOOLS AND SEMINARS.

1. Basic Investigators Training Course, given by the New Jersey Division of Criminal Justice, Trenton, New Jersey.
2. Basic Course for Environmental Crimes, given by the New Jersey Division of Criminal Justice, Trenton, New Jersey.
3. Basic Arson Investigation Course, Given by the New Jersey Division of Criminal Justice, Trenton, New Jersey.
4. Instructor Training Course for self defense using the Monadnock PR-24 Baton.

5. Electricity as a fire cause, given by the University of Delaware.
6. Radiation detection and meter training, given by the New Jersey State Police, Trenton, New Jersey
7. Hazardous Materials Awareness Training, given by the New Jersey State Police, Trenton, New Jersey.
8. Incident Command, given by the Newark Training Academy.
9. Fire fatality investigation seminar conducted by the Morris County Prosecutors Office.
10. Conference sponsored by the Federal Bureau of Alcohol, Tobacco, and Firearms (ATF) concerning automobile fires.
11. Attended quarterly meetings of the International Association of Arson Investigators (IAAI) at the Monmouth County police and Fire Academy.
12. Attended several organizational meetings on the computer aided dispatch system which will be instituted.
13. Attended meetings at Saint Barnabus Medical Center on Juvenile Fire-setters concerning psychological testing and hospital facilities available.
14. All members re-qualified in the care and use of firearms at the Newark Police Departments Range.
15. Monthly training seminars at the office of the Arson Task Force in Essex County regarding changes and updates in Title 2C, of the New Jersey Criminal Code.
16. In-service Training by Division of Criminal Justice, given at the Morris County Police and Fire Academy and Burlington County Fire Academy.
17. Fire Fighter Responsibility in Arson Detection given to all recruit classes, and newly appointed Captains in the City of Newark.

The Division of Investigation has added extra patrols that look for and apprehend violators of the New Jersey Solid Waste laws.

The Division of Investigation has also provided instructors to the Insurance Industry in Arson related vehicle fires.

The Division of Investigation gives periodic lectures to the Newark School system on the dangers of spraying MACE and other chemical compounds within the school areas.

The members of the Division of Investigation while out on Pro-Active patrols in high crime areas of the city, are watchful and have recovered many stolen vehicles prior to them being further vandalized or set on fire.

FIRE SIGNAL SYSTEM OPERATION
COMMUNICATIONS
ANNUAL REPORT
FOR THE YEAR 1994
WALTER MASZCZAK, CHIEF

The Division's Operations Unit receives alarms, dispatches units, conducts all emergency radio communications and controls the status and movement of all emergency units. It records all alarm activity and radio traffic for future reference and regularly tests all alarm circuits. It also coordinates special requests for emergency responses from other agencies.

The Construction and Maintenance Unit maintains and repairs the department's Fire Signal System, which includes a total of 750 private and street fire alarm boxes, signal consoles in the fire houses and a twenty five square mile area of overhead and underground cable. The Unit is also responsible for the inventory, maintenance and repair of the department's emergency radio system. This includes all mobile units, portable units, receivers, and associated equipment.

FIRE SIGNAL SYSTEM
MAINTENANCE & CONSTRUCTION

The following is an account of this Division's work performed during the year 1994.

Subterranean ducts rodded, (feet of)	7,100
Pull wire installed in ducts, (feet of)	7,500
Subterranean cable installed, (feet of)	105,000
Subterranean cable removed, (feet of conductor)	8,000
Single line wire removed and installed new (feet of)	6,300
Aerial "C" wire installed, (feet of conductor)	30,000
Fire alarm boxes serviced, tested and wound	1,945
Stanchions & junction boxes modified & replaced	11
Trees trimmed	120
Ground rods buried	18
Firehouse serviced	24
Field inspections, (hours of)	130
Training sessions, (hours of)	50
Housekeeping / Vehicle maintenance, (hours of)	125
Major jobs completed	1,800
Minor jobs completed	3,600
Pre-construction and survey conferences	15
Painting pedestals & fire boxes	90
Illegal election signs removed	10,426

SPECIAL SERVICES AND SUPPLY COMPANY
ANNUAL REPORT SUBMITTED BY
JAMES P. CLARKE, CAPTAIN
FOR THE YEAR 1994

The Special Services and Supply Division operated on an around the clock basis throughout 1994 and continued to provide the necessary services of supply and repair to all Fire Department units, other city departments and agencies and the community in general.

Accomplishments and services provided by the various departments and personnel of this division during 1994 are as follows:

DELIVERY AND PICK UP SERVICE; Deliveries and pick ups were made on a morning, afternoon, and evening basis as per schedule for routine items and problems of an emergency nature were handled immediately. Supplies that were handled varied, and included tools, extinguishers, oxygen, and air cylinders, pumps, self-contained breathing apparatus, furniture, lockers, hose, other firefighting equipment, Haz-Mat supplies, and other miscellaneous supplies.

Special Services personnel responded to the fire scenes with fuel for apparatus, air tanks, salvage covers, foam, Hi-Ex foam generator, smoke ejector, and other supplies and equipment. Salvage covers were picked up from fire scenes and returned to fire companies after being cleaned and dried. Fire apparatus requiring repair or replacement were picked up and delivered to various locations. Vehicles and personnel were supplied to assist in relief of firefighters at tour changes.

MASK DEPARTMENT: The Mask Department is charged with repair and continuing maintenance of SCOTT of self-contained breathing apparatus used by the department. During 1994, 511 masks were repaired and rebuilt to proper working specifications. 13,458 air cylinders were checked and refilled, and 99 cylinders were repaired. A random cylinder is tested by Liquid Carbonic Company each month for air purity. Mask Department is authorized to do its own repair of masks by Scott Aviation.

HOSE DEPARTMENT: The Hose Department kept all fire companies properly supplied with hose, nozzles, fittings, and appliances during 1994. All hose was subjected to the annual pressure test. Defective or damaged hose was repaired or replaced. The 1 3/4" hose has been supplied to all pumpers with the Elkhart SM-30 nozzle.

SUPPLY DEPARTMENT: Tools, equipment, and supplies were ordered, received, checked, and recorded, stored, or distributed as needed throughout the department. Personnel repaired porto-lights, desk lamps, extension cords, K-12 saws, generators, and other equipment.

Through this department maintenance and upkeep of Fire Department buildings is accomplished through liaison with other city agencies.

LADDER DEPARTMENT: Various size metal ladders were received, stored, and placed in service with fire companies. All department ladders are now maintained and repaired by Special Service personnel.

CANVAS DEPARTMENT: Canvas items, such as mask box covers, control box covers for truck companies, chain saw sheaths, electrical generator covers, and rope bags are made in this department. Window shades are made or repaired for all Fire Department buildings. The firefighter assigned to the Canvas Department also works with the Mask Department in filling air tanks and repairing masks.

OTHER ACTIVITIES: Special Service Division has been charged with purchase, distribution, and replacement of safety equipment and turnout gear for firefighting personnel.

Portable pumps were made available to the public on 19 occasions for flooding conditions. Portable electric generators, lamps, cables, and extinguishers were made available and distributed for various community demonstrations and functions.

Each department of Special Service and Supply kept records and file system; and submitted required reports consistent with their duties and activities. Housekeeping duties were performed to maintain quarters in a clean and presentable condition.

OBJECTIVES: To continue to provide quality service to all Fire Department units, city agencies and the community in general.

To continue to secure and evaluate new products, tools, and equipment. This will insure that the firefighter will have the best available items with which to provide top service.

SPECIAL SERVICES AND SUPPLY COMPANY

PERFORMANCE REPORT 1994

Number of Alarms Answered	56
Pickups and Deliveries Made	13,458
Motor Oil Distributed at Fires (Gallons)	8
Diesel Oil Distributed at Fires (Gallons)	220
Electric Generators Used	15
Floodlight Cables Used	22
Number of Lights Used	10
Window Shades Made	41
Portable Pump Supplied For Flooding	19
Hours For Delivery and Instruction on Pump	24
Portolites Repaired	85
Portolite Batteries Delivered	388
Foam Delivered (Gallons)	225
Oxygen Cyclinders Refilled	47
Air Cyclinders Refilled	10,908
Air Cyclinder Repaired	99
CO-2 Extinguishers Refilled	235
Dry Powder Extinguishers Refilled	246
Masks Repaired	511
Canvas Covers Made	51
Ladders Repaired	10
Ladders Repaired (Feet)	160
Movement of Apparatus	16
Hooks Repaired	35
Salvage Cover Pickups	8
Saws Repaired	94
Generators Repaired	21
Salvage Covers Delivered	44

EQUIPMENT ISSUED TO FIREFIGHTERS IN 1994

Gloves	246 pairs
Boots	185 pairs
Coats	70

DIVISION OF MOTORS
ANNUAL APPARATUS REPORT FOR THE YEAR OF 1994
SUBMITTED BY
BATTALION CHIEF MICHAEL LAWLESS

In accordance with Department rules and regulations, the following report is submitted for the year 1994. During 1994 the Apparatus Repair Shop engaged in the following activities:

- * Liaison work between the Repair Shop and the Fire Department;
- * Change-over of apparatus when necessary;
- * Scheduling of oil changes, lubrication, and maintenance work;
- * Supervised the record keeping of repairs to apparatus;
- * Assisted in writing specifications for new apparatus;
- * Inspection and Acceptance Testing of new apparatus;
- * Training of officers and men on new apparatus;
- * Working with training academy on a comprehensive drivers training and preventive maintenance program

At the present there are 87 vehicles assigned to the Fire Department. They consist of :

- 16 Engine Companies
- 4 Squirts
- 9 Aerial Ladders
- 1 Quint
- 1 Heavy Rescue Vehicle
- 1 Haz-Mat Truck
- 1 Spare Rescue Squad
- 1 Mobile Command Unit
- 1 Haz-Mat Spill Truck
- 1 Spare Squirt
- 4 Spare Engines
- 2 Spare Aerial Ladders

The remaining vehicles are assigned to Field Chiefs, the ArsonSquad, Training Academy, Special Services, Community Relations, Fire and Life Safety, Telegraph Division, and the Office of Emergency Management.

In 1994 there were five (5) new vehicles added to the fleet, a 1992 Chevrolet Caprice one (1) E-One 1250 gpm Pumper, one (1) E-One 1250 gpm Squirt, one (1) E-One 110 foot Aerial and one (1) E-One Heavy Rescue Squad.

There were four (4) vehicles decommissioned: 2 Chevrolet station wagons, 1 Compac Pumper, and 1 American La France Aerial Ladder.

Attached is a list of vehicles and assignment by register number.

TRAINING / MARINE DIVISION
ANNUAL REPORT FOR 1994
SUBMITTED BY
JAMES A. LANGENBACH, BATTALION CHIEF
COMMANDANT OF TRAINING

The Training Division is responsible for all phases of training in the Newark Fire Department. This Division also trains various other personnel from both city agencies as well as private industry. All training courses are based on National Fire Academy, National Fire Protection, International Fire Service Training Association standards as well as the Standard Operating Procedures of the Newark Fire Department. This training takes various forms from the daily scheduled company drills to the department wide training sessions. Another example is the driver certification program which is an on going instructional tool for both new and veteran apparatus drivers.

WEEKEND TRAINING

The Academy facilities, training tower, smokehouse, video tapes are available for use by companies on the weekends. used by various field units on the weekends. The facility is often used by the E.M.S. personnel on the weekends for extrication drills which also include Fire Department members.

SPECIALIZED TRAINING

Training in Haz-Mat, operations is performed at the Academy. It is also the responsibility of the Academy to schedule training away from the city as necessary. This training could include Haz-Mat, Extrication, Confined Space Rescue, or other training of a specialized nature.

DEMONSTRATIONS

The academy grounds are often used for demonstrations. These might include fire extinguisher, new fire fighting tools or procedures. These demonstrations are carried out for department personnel as well as civic and professional groups.

AUDIO-VISUAL PRODUCTIONS

The Academy has the capability to produce and duplicate video training programs for distribution to field companies. It is also in the planning to produce a training program for broadcast over the cable television station.

THE FIREBOATS RENAISSANCE AND JOHN F. KENNEDY

The Fireboat Renaissance is manned on a twenty four (24) hours a day. In the event of it's need to respond to an incident members are dispatched from a pre-selected Engine Company to augment manpower.

THE SAFETY COMMITTEE/ACCIDENT REVIEW BOARD

The Safety Committee meets at the Academy monthly. It's members include representatives from the labor unions, special services, motors, planning and research, and the Director's office. It's purpose is to investigate safety concerns brought up by the department members with the aim of preventing accidents.

The Accident Review Board also meets monthly. It's purpose is to investigate motor vehicle accidents involving department apparatus with the aim of avoiding future occurrences.

TRAINING RECORDS

Academy personnel are in the process of taking the records that were traditionally kept in file cabinets, and entering them in a new computer data base. This should make them more accessible and will make tracking of the level of training easier.

PLANNING AND RESEARCH DIVISION
ANNUAL REPORT FOR THE YEAR 1994

The Planning and Research Division provided staff assistance to the Fire Director during 1994. Other city and outside agencies were assisted when help was requested.

Areas of activities included but were not limited to the following:

Monitoring On-Duty Manpower

Manpower projections and field overtime needs for the year are determined on the basis of personnel assigned, vacation scheduled, average sick leaves and emergencies. Field overtime is assigned by the Planning Division throughout the year, based on available funds, to insure adequate manpower.

Daily roll call records are maintained by compiling the "Exception" reports of manpower strength submitted by all field Battalion Chiefs. Data is entered on Department computers using a program developed by members of this Division. Graphic representations of personnel strength are developed monthly. During 1994 the average field "on duty" manpower strength averaged 110 Captains and Firefighters per tour. The average fire company responded to emergencies with a complement of 1 Officer (or Acting Officer) and 3 Firefighters during 1994.

Personnel Assignments

Fire Department personnel assignments, retirements, promotions and personal information are maintained by computer and are tracked. Monthly reports concerning budgeted positions and current vacancies are reviewed regularly with the Fire Director.

"Lump Sum" and "Terminal Leave" retirements are tracked to their conclusion. New fighters are hired based on these retirements. Twelve new Firefighters were hired during 1994.

All requests for transfer within the Fire Department are filed and lists maintained for possible assignments. This Division provides statistics to the Director / Fire Chief as to the most advantageous assignments of personnel.

Records concerning the Firefighter/Officer Deferred Vacation Bank were all verified, updated and entered on a computer application developed by this Division for simplified record keeping.

Overtime Program

In 1994 this Division's Overtime program amounted to over \$500,000 and assigned, recorded and tracked 1086 field overtime assignments.

Sick Leave and Injury Reporting System

Sick leave and injury reports are updated and filed daily. Sick and injured personnel are checked for progress. Members injured "on the job" are treated at the Universal Industrial Clinic, retained by the City of Newark for this purpose. Reports pertaining to sick and injury leaves are presented to the Fire Director on a regular basis. Members on sick or injury leave contact this Division to receive permission to see the Department Physician or to leave their homes when necessary.

Injury statistics are collected and used to compile the State of New Jersey Public Employees Occupational Safety and Health Program Log and Summary of Occupational Injuries and Illnesses which is submitted to the State of New Jersey Department of Labor. The New Jersey Department of Labor will be notified of any "severe" injuries during 1995.

In 1994, the Fire Department listed 156 line of duty injury and illness incidents requiring reporting to the New Jersey Department of Labor (PEOSH Report). One Firefighter died in the line of duty during 1994. Total full days lost time for the Fire Department due to line of duty injury and illness during 1994 was 681 days. This Division made 134 temporary, "light duty" assignments / reassignments to staff positions in 1994 for members who were recovering from injury or illness and were unable to perform full firefighting duty.

The Planning and Research Division continued to transmit Compensation Reports to the Newark Law Department and Personnel Department. The Planning and Research Division also works with the Law Department on interrogatories to assist them on compensation cases. This Division verifies claims for payment made to the City of Newark by agencies which treat Fire Department personnel injured while on duty.

Records concerning the sick and injury leaves of personnel are maintained. Applications for compensation for "line of duty" injuries and confirmation of compensation awards are recorded and files are maintained.

Personnel Records

This Division-maintains records of:

- (a) Appointments
- (b) Retirements
- (c) Promotions
- (d) Demotions -
- (e) Resignations

Contract Preparation

In 1994 this Division facilitated the renewal of a contract to obtain the services for:

- 1) Physician [part time] to provide:
 - (a) sick leave meetings
 - (b) procedure meetings to discuss sick leave procedures new forms and other matters.
 - (c) substance abuse testing when ordered by the Fire Director [reports confidential: for Fire Director only]
- 2) Fire Boat repairs
- 3) Air tanks & mask facepieces
- 4) Fire apparatus
- 5) Fire boots
- 6) Station wear
- 7) Bunker gear

Operating Budget Preparation

This Division, along with the business office, prepared the Department's 1994 annual budget which was over \$40,000,000.

Capital Budget Preparation and Monitoring

This Division prepares and monitors the Department's annual Capital budget.

New Construction - Fire Facilities

- (a) The new firehouse planned for Engine 10, Engine 12, Truck 5 and Battalion Chief 4 in the area of Clinton and Milford Avenues is currently in the design and site planning phase.

Fire Facility Rehabilitation Program

This program schedules major reconstruction of Fire Department facilities as required. This Division coordinates and prioritizes the major repairs needed at Fire Department facilities. The General Services Department has been requested to upgrade various facilities as needed during 1995.

Apparatus Replacement program

This program is designed to maintain all first line apparatus at an age of 10 years or less, and spare apparatus of 14 years or less. The program is maintained with the purchase of two pumpers and one Aerial Ladder Truck each year. One Pumper, one "Squirt" type Pumper, one Ladder Truck, five automobiles, a pick up truck and one van will be ordered from the Capital Budget in March 1995.

One 1250 gallon pumper, one "Squirt" type pumper, one ladder truck and one heavy rescue unit were received from suppliers and put into service during 1994.

Management Information System

Computer Aided Dispatch System (CAD)

The installation of the Computer Aided Dispatch System (CAD) continued in 1994. The Fire Signal Operations Division has begun to install computers and modify the facilities at the Communications Room at City Hall in anticipation of CAD going "live".

Computer Local Area Network

A Local Area Network of computers was installed in Fire Headquarters during 1994. This Network will serve all Divisions operating at 1010 18th Avenue.

General Orders of the Department

This Division maintains, reviews, and re-issues the Fire Department's General Orders, as directed by the Director / Fire Chief.

Special Assignments

Awards

This Division provides information, as directed by the Director / Fire Chief, to organizations wishing to honor acts of courage and/or community service performed by members of the Fire Department.

Survey

Survey information requested by outside agencies was provided by this Division when necessary.

Emergency Operation Center

During 1994 the Fire and Police Planning Divisions worked together to develop and fund an Emergency Operation Center on the property of our Training Division at 33 Jersey Street. This project was successfully completed and funded for \$200,000.

COMMUNITY RELATIONS DIVISION
ANNUAL REPORT FOR THE YEAR 1994
SUBMITTED BY WILFRED QUIST, FIREFIGHTER

The Community Relations Division as in the past operates a 24-hour, seven day a week fire victim relocation program. We assist fire victims in finding emergency shelter in cooperation with public and private charitable organizations such as the American Red Cross. This unit also responds to aid the public with non-fire related housing problems, such as no heat, no electricity; unsafe buildings, buildings with unsafe living conditions. The people who are helped by this Division are given temporary housing and when available are given clothing that has been collected from people who make donations to us through out the year. In the year 1994 there were 1,396 people relocated from 398 families at 136 fires, there were 17 families helped at non-fire special call incidents.

Community Relations Division makes a special effort to reach the school aged children. Every school in the Newark is offered to have a presentation or program in there school and any school who wishes we make an effort to have a "first line" firefighting apparatus respond to the school so the children can have Hands On and meet the firefighters.

The Community Relations Division also provides Fire Education Programs to the citizens of Newark. This year 1994 we delivered 375 public fire safety education programs. These programs reached every segment of the City's population. All presentations were made using lectures, videotapes, films, and slide-cassette programs. The number of people reached by this division is approximately 63,487.

We had worked with the Newark Pre School Program on three programs one in April, one in October, and one on going the whole year. The April program was held at the United Hospital and we worked with approximately 2,000 children and 450 adults. This year the October program was expanded to include the McDonald's Corp. and Ronald McDonald along with police and E.M.S. along with the Fire Department. The Newark Police sent mounted officers on horse back, the bicycle patrol, the scooter and motorcycle unit and the regular patrol division. E.M.S. sent there ambulance and there new 911 phone education program. All of these units were there so that the children were able to have a hands on experience with the emergency units they may come in contact with during there lifetime. The program was very well received by the children and their parents. At this program we had approximately 4,500 children and 750 adults in five days.

The program was Sesame Street, Big Bird fire safety program was a big hit with the children. Again this year Firefighter Ronald Ballew of Truck 7 coordinated the program with the Avon Avenue Boy's Club, Division of Youth and Family Services, Newark Preschool Council, International Youth Organization, the Newark Office of the Children, Newark Leaguers, and the South District task force of Division of Youth and Family Services.

The Community Relations Division worked with the Division of Fire Investigation and the Family Service Bureau of Newark we have identified sixty seven (67) children as juvenile firesetters and the Community Relations Division worked with D. Pannullo of the family service bureau in educating these children in the dangers of playing with fire. The number of children that have taken time to come to the program we hope to help these children. The program known as the Essex County Juvenile Fire Setters Intervention Program which is recognized by the Essex County Freeholders. This program works with the mental health and fire departments and we try to make the family and the child aware of what could happen if the problem is not addressed by all who are involved.

At this time the United Way fund drive is still underway and Community Relations Specialist Louise Jarrett and Community Relations Specialist Joseph Scrimmager have collected pledges in the amount of \$ 8,000.00 and they are about 3/4 finished and they are now making call backs to places that requested them to do so.

Again this year Community Relations Specialist Avis B. Thomas put together the Christmas party for the senior citizens and we were able to purchase 350 food baskets with the money that was collected on Mc Carter Highway by the paid firefighters and a group of volunteers who worked every weekend from 11/19/94 to 12/17/94. We purchased toys to give to the "Needy Children of Newark at the Mayor's party for the children at which we normally give 6,000 toys but this year the U.S. Marines did not see fit to give us the 5,000 toys we requested which in turn made the number of children that we were able to give toys to much lower than what we have done in the past.

The Community Relations Division also continued to deliver specialized fire safety training programs for the industrial and business community. The training was in the fire extinguisher use and fire drill performance.

We at the Community Relations Division would like to thank the Chief Officers, Captains, and the members of the Newark Fire Department for their help with our projects and the programs this year and we hope the relationship will continue in the coming year.

We would like at this time to thank the staff of Director/Fire Chief Kossup's office for their help in assigning the needed fire apparatus to the programs. We hope that the hours put into the programs will make the City of Newark a more fire safe place to live.

PHOTOGRAPHY DIVISION
ANNUAL REPORT SUBMITTED BY
LAWRENCE KRIEGER, FIREFIGHTER
FOR THE YEAR 1994

MEDIA LIAISON & PHOTOGRAPHIC UNIT

The following report is herewith respectfully submitted outlining the activities of the Public Relations and Photography Division for the year 1994:

This Division has continued to keep the public informed of the various events which occurred throughout the year. As the media liaison, I respond to fires and other incidents as requested by the Fire Director, gathering information and disseminating it via radio, television and newspapers, in the form of releases, news announcements, bulletins, etc.

ASSIGNMENTS RESPONDED TO

Signal 100 (Arson or Suspected)	73
Signal 200 (Death at a fire, not actual count)	5
Multiple Alarms (2nd or greater)	26
Public Relations (Includes attending ceremonies, appointments, awards, promotionals, demonstrations)	11
Special Assignments (working in cooperation with other agencies, Law Department, Division of Fire Prevention and Life Safety, Demolition and Engineering Departments)	<u>22</u>
Total Assignments Worked	137

Darkroom Activities Included:

Total Negatives Processed and Developed	825
Total Prints Processed and Developed	1,050

I wish to extend my sincere thanks to Director / Fire Chief Stanley J. Kossup and to all the officers and members of the Fire Department, for their cooperation and assistance they gave me throughout the past year.

-
ANNUAL REPORT
SUBMITTED BY THE
CATHOLIC CHAPLAIN
REV. MSGR. HORTON J. RAUGHT
FOR THE YEAR 1994
-

The following is a report of my activities as Chaplain of the Newark Fire Department for the year 1994.

I responded to multiple alarms of fire when summoned. When necessary I accompanied injured firefighters to the hospital from the fire scene.

I visited the various hospitals in the area to attend members of the Fire Department who were ill or injured in the line of duty. Visits were made also to their families when I was notified of their illness.

Attended wakes for the deceased members of the Fire Department or members of their families. I participated at the funeral services for members of the Department both active and retired.

Participated in all swearing in ceremonies of new Fire Department personnel as well as promotional ceremonies.

I conducted the 71st Annual Memorial Service for the deceased members of the Newark Fire Department. The Annual Memorial Mass and Service was conducted at St. Patrick's Pro Cathedral Newark, New Jersey. Also participated in the Annual Spring Memorial Service at the Firefighters' Monument in the Mt. Pleasant Cemetery, Newark, New Jersey.

Attended all activities both social and civic pertaining to the Newark Fire Department as well as those sponsored by the Newark Officers Union and the Newark Firefighters Union; the Newark Fire Department Historical Society, the Bell and Siren Club and the Newark Fire Credit Union.

-

I wish to express my deep and sincere gratitude to Fire Director / Fire Chief Stanley J. Kossup and to all the Officers and members of the Newark Fire Department for the friendship, courtesy and cooperation they have shown me.

-

THE BELL AND SIREN CLUB, INC.

ANNUAL REPORT
FOR THE YEAR 1993

The Bell and Siren Club, organized in 1949, is a non-profit, voluntary group, dependent upon membership dues, social functions and the contributions of the communities it serves, to finance its activities and acquire and maintain its equipment.

Membership is limited to 50 active members whose conduct must adhere to the official Club Code of Operations.

The Club serves free refreshments of coffee, fruit drink, tea, hot soup, etc. from a mobile canteen unit, "The Rig," to firefighters at the scene of a fire, inside the fire lines.

NEWARK OFFICE OF EMERGENCY MANAGEMENT

ANNUAL REPORT FOR THE YEAR 1994

SUBMITTED BY

ROBERT D. SWALES

DEPUTY COORDINATOR

The Newark Office of Emergency Management is a division within the Fire Department, headed by the Deputy Coordinator of Emergency Management.

OBJECTIVES

The objectives of the Newark Office of Emergency Management are to respond to all major life and health threatening incidents (such as hazmat incidents) within the City of Newark, and to provide through that response the coordination of the efforts of all agencies and entities involved in responding to the incident, including public agencies from any level of government, private sector agencies, community and relief agencies and representatives of business and industry; to prepare for, respond to mitigate and recover from the effects of these incidents; to relieve Hazmat and Fire Companies from engagement in such incidents immediately after the response phase is completed; to maintain an equipped administrative office; to prepare and coordinate the preparation of detailed plans for survival actions under various conditions, ensuring the full participation of all agencies (public or private) that have a potential contribution; to make adequate plans for the management in an emergency, of resources in the city; to ensure implementation of the state plans for the continuity of government at all levels during emergencies; to coordinate the continual updating of all such plans and lists of personnel who would supplement various city departments in a crisis; and to provide coordination with the military establishments, reserve or regular, within the geographical boundaries of the city, for their assistance, if needed; to coordinate the Local Emergency Planning Committee (LEPC) as mandated by SARA; to provide an avenue of public access to information as mandated by SARA; to ensure industry compliance to SARA legislation; to maintain files and records of SARA reporting facilities; to take the necessary actions, in conjunction with other city agencies, that lead to the apprehension and prosecution of illegal dumpers and others responsible for endangering the welfare of the people of Newark through noncompliance or faulty compliance with chemical industry, transportation or handling regulations in the City of Newark through the exercise of surveillance, inspection or other means of detection; to provide, through the EOC, an Emergency Operating Facility capable of housing representatives of city government and city agencies for the purpose of providing command and control during an extended period of emergency; to provide the citizens

sufficient fallout shelters (either community or private), properly stocked and protected; and to meet Federal Emergency Management requirements for a co-funded municipal emergency management agency and the compliance requirements originating from the New Jersey State Police Office of Emergency Management and the Essex County of Emergency Management which include the provision of emergency management training and participation in the state-wide and county-wide drills and exercises; and to provide personnel from the various agencies of the City of Newark with the opportunity to participate in emergency management training courses.

Field Response

The Newark Office of Emergency Management is specifically charged with the responsibility of responding to all hazardous materials incidents and multiple alarm fires. In the case of hazmat incidents, the OEM is not only a first-response agency, it is also the coordinating authority for cooperative action between city agencies and county, state and federal agencies such as the NJDEPE (New Jersey Department of Environmental Protection and Energy), the EPA (Environmental Protection Agency), the Essex County OEM (Office of Emergency Management), the NJOEM (New Jersey Office of Emergency Management Division of the New Jersey State Police) and any private sector companies such as contractors and industry officials that may be involved.

In this role the OEM negotiates on behalf of the City to reduce clean-up costs, remain on site to secure such agreements and ensure that proper recovery procedures are instituted, and generally follows up each incident to its conclusion, that is through clean-up and through the maze of litigations that are spawned by these incidents, sometimes lasting for years after the occurrences, always continuing long after the other response agencies have taken up, and it is due to this function of the OEM that Hazmat and Fire Companies are able to terminate their involvement in the incident at the logical transition between the response and recovery phases. In this context, the OEM works closely with a number of city departments such as the Fire Department, the Department of Engineering, the Law Department, and the Newark Police. In the past year, the Newark Office of Emergency Management has developed a close working relationship with the State Attorney General's Office, Department of Criminal Justice.

The Newark Office of Emergency Management responded to 425 calls relating to reports of hazardous materials incidents or related problems in 1994. The nature of these responses include on-site investigation of incidents, coordination of efforts with the Department of Environmental Protection, the Hazmat unit and other units of the Newark Fire Department, the Environmental Protection Agency, the Newark Department of Engineering and the Department of Criminal Justice to evaluate the actions leading to the apprehension of responsible parties. The OEM maintains an interest in each incident from discovery through clean-up, to ensure that the situation is corrected.

The primary function of the OEM in three alarm fires is to provide for the opening and operation of contingency shelters for large numbers of people when this becomes necessary. The OEM works as a coordinating agency in contact with the Essex County Chapter of the American Red Cross and the Superintendent of Schools as well as other social service agencies to ensure the provision of this shelter.

The OEM is also the agency that responds to reports of illegal dumping in the City, and as such performs surveillance, assists in apprehension, and provides testimony in court in order to ensure the prosecution of illegal dumpers. In this context, the OEM works in conjunction with the Law Department, the Prosecutor's Office, the Newark Police, and the Criminal Justice Department of the State Attorney General's Office.

Building Inspections

In 1994 the Newark Office of Emergency Management participated with the Hazardous Materials Office of the Newark Fire Department in 52 building inspections.

THE LOCAL EMERGENCY PLANNING COMMITTEE (LEPC)

Since the OEM is mandated by federal and state law to coordinate the implementation of Title III (SARA) legislation in conjunction with the Newark Departments of Fire, Engineering, Police, Health and other agencies. The OEM is currently working with private industry and with city agencies to meet the requirements of this legislation within the specified time frame. The Lepc was organized according to the participation formula specified in Title III and several meetings have been held.

REVISION OF THE EMERGENCY OPERATING PLAN (EOP)

In 1989, The Emergency Operating Plan for the City of Newark was completed and received approval from the New Jersey State Police, Emergency Management Division. The Emergency Operating Plan is maintained and updated on a continual basis by the Office of Emergency Management, and a completely revised plan is submitted to the State every two years. The Newark Office of Emergency Management is now in the process of coordinating the first major revision of the Emergency Operating Plan in cooperation with all of the various city agencies who have an active role in emergency management.

Training

Mr. Swales and Mr. Penn attend on going training sessions held on county, state and federal levels.

Emergency Management staff have also attended training sessions on other subjects such as Shelter Management and word processing/data entry.

Radiological equipment inventory and training are handled by the HAZMAT unit of the Newark Fire Department. All members of the HAZMAT unit have received radiological training from the State Radiological Officer. This training program was also given to other city personnel from OEM, Engineering and Health. On 3/30/94 two White Kits (Ludlums) were exchanged with the state and two newly calibrated kits were received, on 12/15/94.

Local Meetings involving Department Heads and volunteer agencies are held on a regular basis for the purpose of producing the Emergency Operating Plan and for the overall purpose of reviewing assigned responsibilities for emergency situations. Such meetings are held at the Fire Department's Training Center.

The Deputy Coordinator or his designee has attended all County municipal coordinators meetings for the period between 1/1/94 and 12/31/94.
